# HONG KONG..FEEL THE ENERGY!

## February, 2010

It is my sincere pleasure to have the opportunity of inviting you to what I am sure will be **the magnesium industry event of 2010!** I am of course speaking of **IMA's 67<sup>th</sup> Annual World Magnesium Conference!**

We have located this year's Conference at what is arguably one of the premier hotels in Hong Kong, the Kowloon Shangri-La. The best news of course is that we were able to negotiate great rates besides! Located adjacent to the waterfront, the hotel is in the heart of the commercial and shopping district of Tsim Sha Tsui East. It's the perfect base for exploring Hong Kong and also a great location for watching the nightly Symphony of Lights Show!

You will find, as always, a first rate program featuring approximately 20 papers from across the globe covering an array of timely topics. The Exhibits portion of the Conference also continues to grow. You will truly have the opportunity to see the latest in technologies, services and products for the magnesium industry from across the globe.

Networking is an important function of any Annual Conference and as always you will have ample opportunities to renew old acquaintances and make new friends. Whether it is at the President's Reception, the Closing Reception and Banquet or over a cocktail, you will have ample opportunities to relax, and perhaps conclude that all-important business deal. One thing that you know for sure is that the entertainment and social program at this year's Conference will be unforgettable.

The official language of the Conference will be English but for our Chinese delegates we will be offering simultaneous translation so that they may enjoy all the benefits of attending.

This year's spousal/guest tours will take advantage of the offerings that only Hong Kong can provide.

We look forward to seeing you in Hong Kong. I am sure that you will leave agreeing...that you could feel the energy the moment you arrived in this world class city.

Sincerely,

Greg Patzer  
Executive Vice President

## February, 2010

I would like to invite you to the **International Magnesium Association's 67<sup>th</sup> Annual World Magnesium Conference**, which this year is being held in Hong Kong, May 16-18 2010.

As the world moves out of recession, the emphasis is on lowering costs and protecting the environment. Magnesium provides an answer to both of these issues. Its light weight, recyclability, electrical and chemical properties makes magnesium the material of choice for many applications.

The Conference will cover all aspects of the industry, supply, R & D, new applications, future prospects and probably most importantly, the opportunity to meet industry leaders and network with all sectors of the industry.

As President of the IMA, I encourage you to take the opportunity to update yourself about the magnesium industry and join us in Hong Kong.

I personally look forward to meeting all attendees both old and new.

See you in Hong Kong.

Respectfully,

Ken White  
IMA President

The bustling city of Hong Kong was just a collection of fishing villages when claimed by Britain in 1842 following the First Opium War with China. That's a far cry from the bustling and modern metropolis which it is now. Under the unique principle of 'One Country, Two Systems', Hong Kong returned to Chinese sovereignty on 1 July 1997 as a Special Administrative Region (SAR) of the People's Republic of China. This arrangement allows Hong Kong to enjoy a high degree of autonomy, retaining its capitalist system, independent judiciary and rule of law, free trade and freedom of speech.

Hong Kong's magnificent harbor has been the key to its development as a trading port and entrepôt for China, progressing through an industrial era to become a leading financial and services centre in Asia. The unique blend of eastern and western influences matched by diverse attractions and stunning countryside has also made Hong Kong Asia's prime tourist destination.

## Getting There

Hong Kong International Airport (HKIA) is located less than five flying hours from half of the world's population. With some 750 flights every day and approximately 90 airlines operating, HKIA links Hong Kong with approximately 150 destinations round the world, including some 40 cities on the Chinese Mainland.

## Ground Transportation (to and from the airport)

Getting to and from Hong Kong International Airport is easy, convenient and relatively inexpensive, with numerous options available.

**Taxi**—Taxis are readily available from the taxi pick-up area in front of the Arrivals Hall. Take a red taxi unless travelling only to Lantau (blue) or the New Territories (green). All taxis can go to and from the airport. Fares are metered and details of fares and extra charges are clearly displayed inside each cab.

**Train**—The Mass Transit Railway's (MTR) high-speed Airport Express takes approximately 24 minutes to Hong Kong Island and is the fastest transport link to the airport. Airport Express passengers can take a free shuttle bus from Kowloon station to major hotels. Both these stations provide free in-town check-in services for major airlines.

## General Information

Hong Kong is situated on the southeastern coast of China and covers an area of 1,104 square kilometers (425 square miles). It is comprised of Hong Kong Island, Kowloon and the New Territories, which includes 262 outlying islands. Population is more than 7 million. Electricity is 220V/50Hz UK plug. The Time Zone is GMT +8. International Calling Code: Dial +852 to call a Hong Kong number from overseas. There are no regional codes.

Cantonese is the Chinese dialect spoken by over 88-percent of the people in Hong Kong. However, English is widely used in the Government and by the legal, professional and business sectors, as well as tourist areas. Most taxi drivers and salespeople are able to communicate in English.

## Getting Around in Hong Kong

Hong Kong is geographically compact and boasts one of the world's most efficient, safe, affordable and frequent public transport systems. Whether by taxi, ferry, rail, bus or tram, you can get around easily and catch wonderful glimpses of the city along the way.

For convenience, use an Octopus Card, an electronic stored-value card that is accepted on most public transport, and at many fast food chains and stores. It's easy and convenient to use, saves time and eliminates the need for small change.

## Things to Do & See

Discover the myriad things to see and do in one of the most diverse and exciting destinations in the world. Hong Kong offers a host of memorable tourist attractions within its compact area, with The Peak, Victoria Harbour and the Giant Buddha among the most awe-inspiring.

## Shopping

From glitzy malls to funky street markets, and trendy boutiques to traditional Chinese product stores and themed shopping districts, one can find everything from the latest designer fashions and electronic gadgets to best-value antiques and collectibles. Our host hotel is located in the midst of one of the best shopping areas, Tsim Sha Tsui.

## Dining

Renowned as the culinary capital of Asia, Hong Kong boasts more than 11,000 restaurants, many of them clustered in defined food districts. Apart from enjoying the best Cantonese and regional Chinese food, visitors can sample a full choice of authentic Asian cuisines and Western fare. Local must-try dishes are dim sum and fresh seafood, with some of the top examples found in Best of the Best award-winning restaurants.
